WEDNESDAY, March 25-P. M. Gold closes at 1382. The extremes of the day were 1381@1381. The rate for carrying is still high, equal to 1-16th per cent. The exports per Siberia were \$184,-000. The clearings of the Gold Exchange Bank were \$65,199,600, and the balances \$2,162,894.

Government stocks opened strong, and continued in demand up to the announcement that the bank meeting was a failure, when lower prices were accepted. At the Stock Exchange, the dealings in State securities and Railway mortgages were small. The dealings in shares were also restricted, and hardly enough done to make quotations, except in Erie and New-York Central. The Western shares were all firmly held, and leading dealers were disposed to buy rather than sell. The market was strong up to the adjournment of the bank meeting, when prices broke, without any large amount changing bands. At the decline all the Michigan Southern, North-Western, St. Paul's, Toledo and Wabash, and Cleveland and Pittburgh was freely taken. Later in the day the market closed steady. Government stocks closes substantially as on last night. Mr. Van Dyke has bought to-day \$1,400,000 of 7.30s, for which he has paid in legal-

The general meeting of bank officers held this afternoon failed to agree upon the necessity of relieving the money market through an issue of clearing house certificates, by a vote of 31 to 25. When the question was first taken the Yeas appeared to prevail, but a formal vote stood as stated. This second failure was the signal for a small panic in Government stocks, which fell from I to I per cent, and a rush to sell Erie and New-York Central shares, the latter dropping to 1174 and the former to 673, followed by a sudden rally to 68 and 118. The rest of the 2,000 92 100 egg 701, W & Wab 300 en rally to 68 and 118. The railways, as a mass, are earning enough to attract capital to their support.

A special meeting of the stockholders of the Cleveland and Pittsburgh Road will be held on the 26th, to consider the propriety of increasing the capital stock to represent the earnings used in construction. That the stockholders will authorize this step there is no doubt. The traffic of the company is large, and the corporation in a condition to make dividends regularly.

The reduction of fares on the Eric Road by its fugitive directors has not added to the popularity of the board, except with the bear speculators, who would gladly see the road made impassable and its revenue wholly stopped, if such a state of affairs would enable them to cover their contracts at a profit. As the old rates of passage are as low as the road could afford, and as cheap as the public could reasonably ask, this new sacrifice of the profits is without excuse. The officers of the company publish the following contradiction of a statement printed

this morning:

OFFICE OF ERIE RAILWAY COMPANY,
JERSHY CITY, March 25, 1808.

TO THE PERLIC: The report in some of the mornin
papers, said to have originated at Albany, that th
100,000 shares of new stock of the Erie Railway Compan ury, is entirely without foundation.

The truth is that the whole amount of convertible bonds—\$10,000,000—was issued, as we believe, lexally, and sold, and the proceeds were paid into the treasury of the Company, and not a deliar of the stock has been issued expert upon the surrender of an equal expent of convertible bond.
